Trial & Post-trial

Principal points which the prosecution hammered down during the trial:

Powers guilty of violation of USSR air space

The military and espionage nature of the flight (expert testimony to support this)

*Participation of Puka, Duba, Nazarevskiy, etc.*

Establishment of the shooting down of the U-2 by Soviet rocket at 68,000 feet.

The defense built up the picture of Powers as a victim of the capitalist system:

His proletarian family background.

His total lack of political motivation or interest.

His regret for the consequences of his flight.

His non-resistance when arrested
